

Detroit Diesel Ecm Repair

We at Detroit Diesel ECM know the heart of the Series 50/60 engine is the Electronic Control Module (ECM) and when one fails you are literally "dead at the side of the road". At Detroit Diesel ECM we carry a complete line of refurbished Detroit Diesel Series 50/60 DDEC ECM's. All our used ECM's are pulled from running trucks and go through a refurbishing process that includes bench testing to ensure no volatile fault codes are present and the internal battery is good. We then water test to make sure the case is water tight and the final step is sandblasting the case to a like "new" finish. All our refurbished ECM's are backed by a 90 day replacement warranty. When you purchase an ECM with programming from us, it will be a complete turnkey installation that will get you back on the road. Our line of refurbished Detroit Diesel ECM's include the DDEC 2, DDEC 3, DDEC 4 and DDEC 5* engine applications.

Also available are re-manufactured Detroit Diesel DDEC 4 & 5 ECM's*. The DDEC 4 ECM can be used as a replacement for either a DDEC 3 or DDEC 4 engine application.

Not sure if your ECM is bad? Do you have an ECM that needs programming? Want more Horse Power? We can provide these services plus other programming modifications. Call us for details.

About Us

Detroit Diesel ECM is part of M & C Distributing located in Western Michigan. Our company started in 2006 as a buyer/seller of re-manufactured and used ECM's for Detroit Diesel and Cummins heavy duty diesel engine application. We specialize in Detroit Diesel Series 50/60 DDEC ECM's.

We established ourselves initially on Ebay and achieved a Teal Star dealer award with a 100% feed back rating. We earned this rating by providing a good quality product with customer satisfaction as our primary goal.

All our used ecm's come off of running trucks that where pulled from service due to age and mileage. We just don't stop there as all ECM's are cleaned and tested for reliability before we sell to our customers.

As with any replacement ECM new or used, it is always highly recommended that it be programmed to the engine application. We provided this service as well so once you receive your ECM that's all you have to do is plug and go.

We understand how important it is to get your truck back on the road and with our complete "turn key" ECM package you will be able to do just that. Get back on the road!

Products

Detroit Diesel - Used

- *Detroit Diesel DDEC 2 ECM*
- *Detroit Diesel DDEC 3 ECM*
- *Detroit Diesel DDEC 4 ECM*
- *Detroit Diesel DDEC 5 ECM*

Detroit Diesel - Remanufactured

- *Detroit Diesel DDEC 4 ECM*
- *Detroit Diesel DDEC 5 ECM*

Programming

As with any replacement ECM it will need to be programmed to your engine specifications for optimal performance. For an additional cost Detroit Diesel ECM can provide this service to ensure that when you purchase an ECM from us it will be a complete "turn key" application once installed. All we need is your engine serial number to perform this service.

Calibration

Calibration is not needed, as all we need for programming the Detroit ECM's is the engine serial number.

Warranty

All our used ECM's come with a 90 Day replacement warranty. All Remanufactured ECM's come with a 1 Year replacement warranty.

Detroit Diesel DDEC 3 ECM - Used

Cost \$575.00 - Programming charge is an additional \$250.00 Core exchange required. \$250.00 charge if you have no core.

We accept Visa, Master Card, Discover and American Express credit cards

Application is for Detroit Diesel Series 50 & 60 diesel engine.

All our Detroit Diesel used DDEC 2, 3 & 4 ECM's are pulled from running trucks and are tested and cleaned. Detroit ecm's are interchangeable but must be programmed to your engine serial number to function properly.

In order for us to determine your correct ecm part number and application we will need your engine serial number. The engine serial number is 10 digits, is located on the cylinder head and looks like this example for a Series 50 - 04R0xxxxxx. For Series 60 application the engine serial number starts out like this example 06R0xxxxxx.

On all used electronic control modules (ECM) or also known as electronic control units (ECU) will have a 90 day replacement warranty. On all re-manufactured ECM's will have a 1 year replacement warranty.

Detroit Diesel DDEC 5 N3 ECM – Used

Cost \$850.00 - Programming charge is an additional \$250.00

We accept Visa, Master Card, Discover and American Express credit cards

We ship UPS Ground unless other shipping services specified and only charge their going rates. No additional handling charges are added.

Detroit Diesel DDEC 5 ECM part number R23535990

On all used electronic control modules (ECM) or also known as electronic control units (ECU) will have a 90 day replacement warranty. On all re-manufactured ECM's will have a 1 year replacement warranty.
